How “Normal” Ideas Built the Worst Thing in History (And Why the Structure is Still Running)

A Forensic Historical Analysis of Nazism, Neoliberalism, and Extreme Politics

# The “Necessary Fable” of the Historical Anomaly

It was already there. In plain sight.

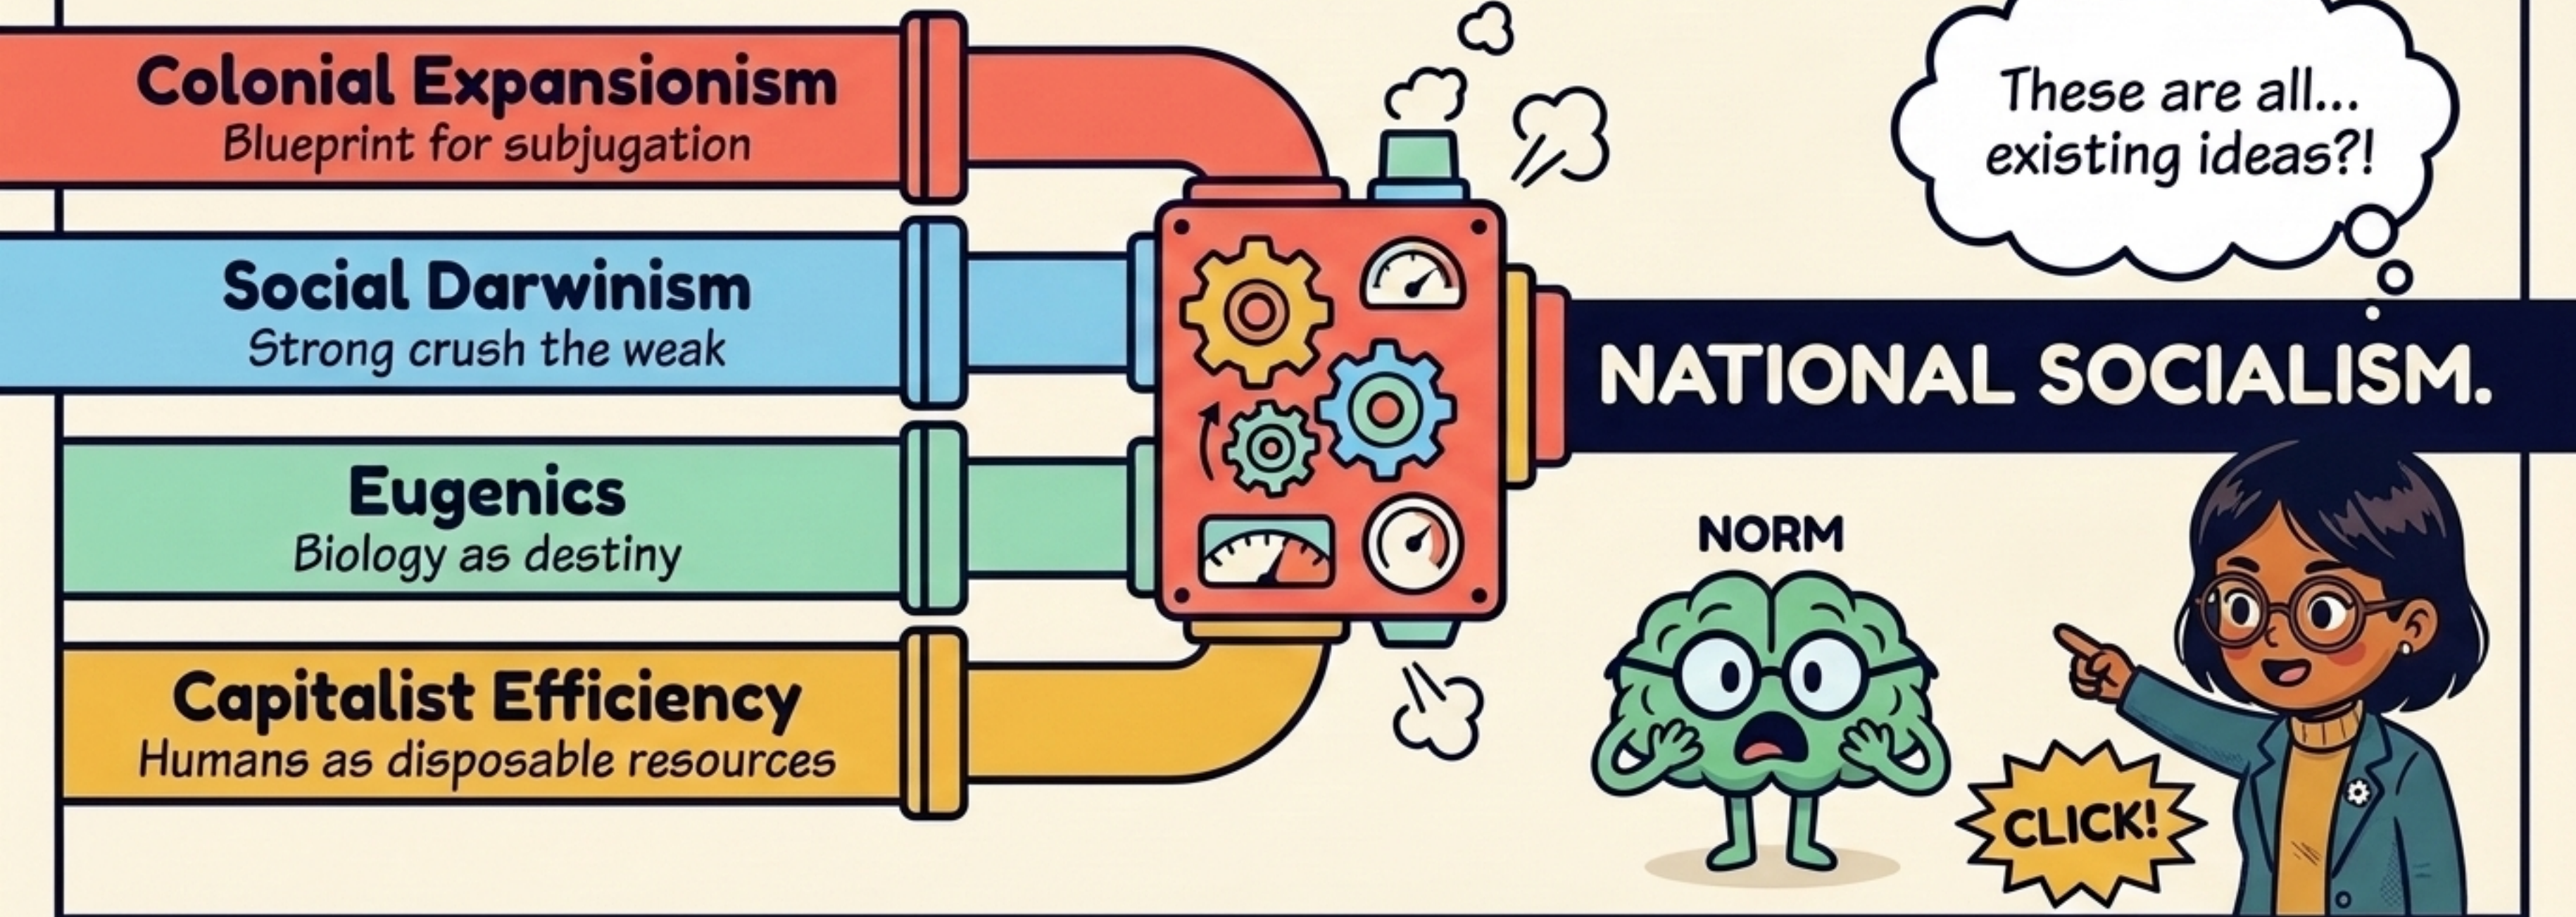

The Accident:  
A radical aberration  
from Western values.

Surface Level

19th Century  
Modernity

Nazism was not an alien invasion or a freak accident; it was an **extreme expression of existing European ideologies.** (Johann Chapoutot, 2018)

# Industrialising the Pathologies of Western Capitalism

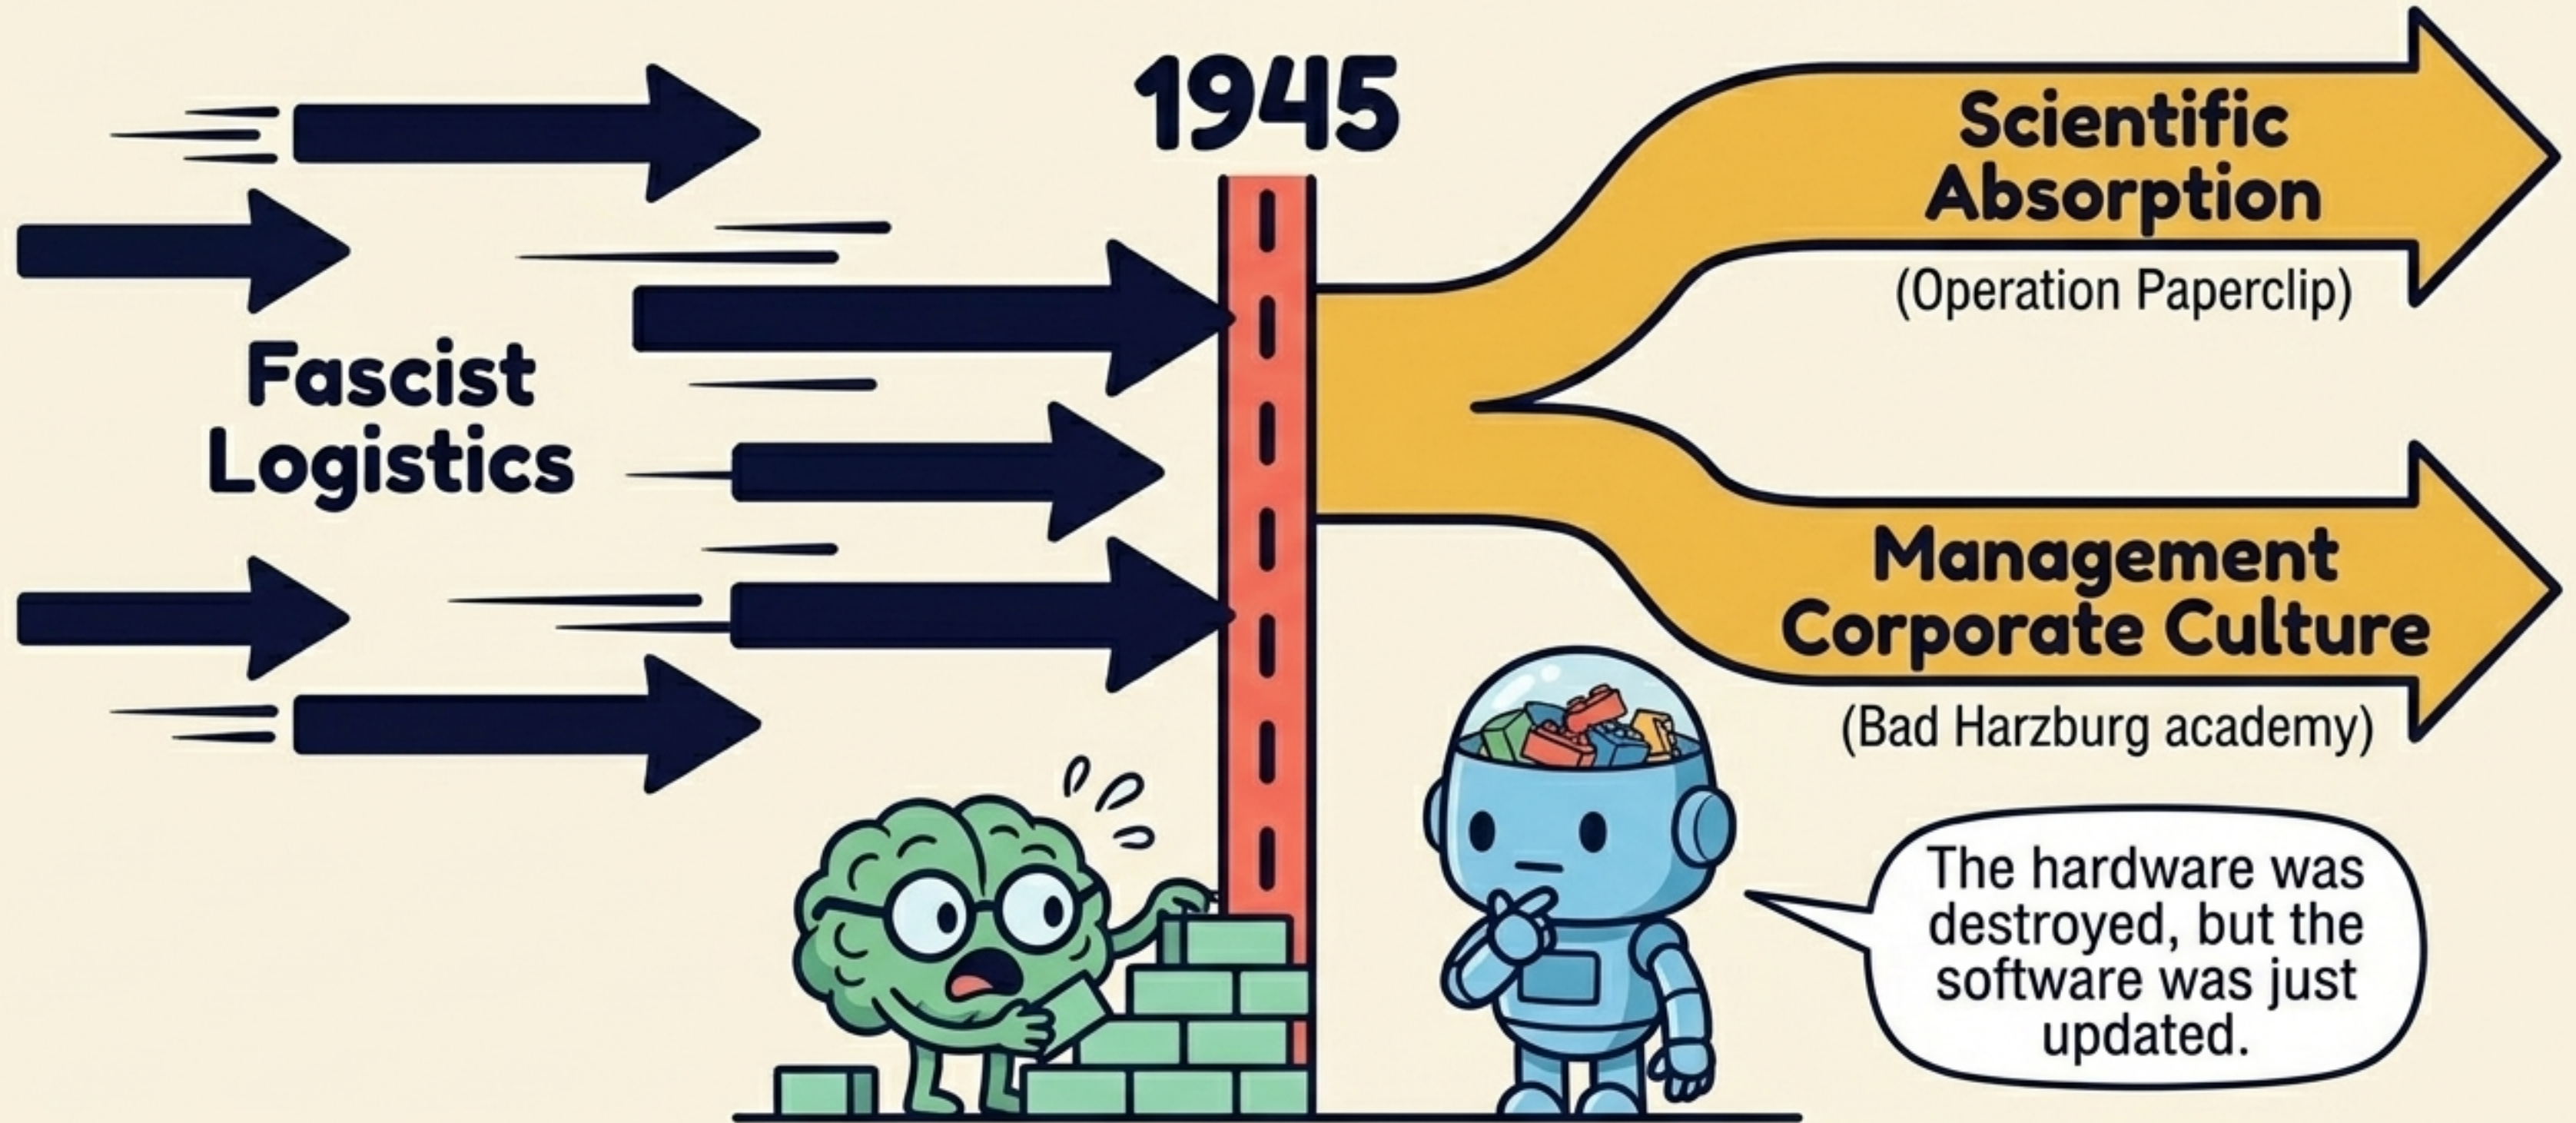

Nazism did not invent its ideas—it industrialised them.

# The Democratic Myth: Appointed, Not Elected

Democracy was dismantled legally, from within, by panicked elites seeking a bulwark against social progress to protect capital.

# The Post-War Renovation

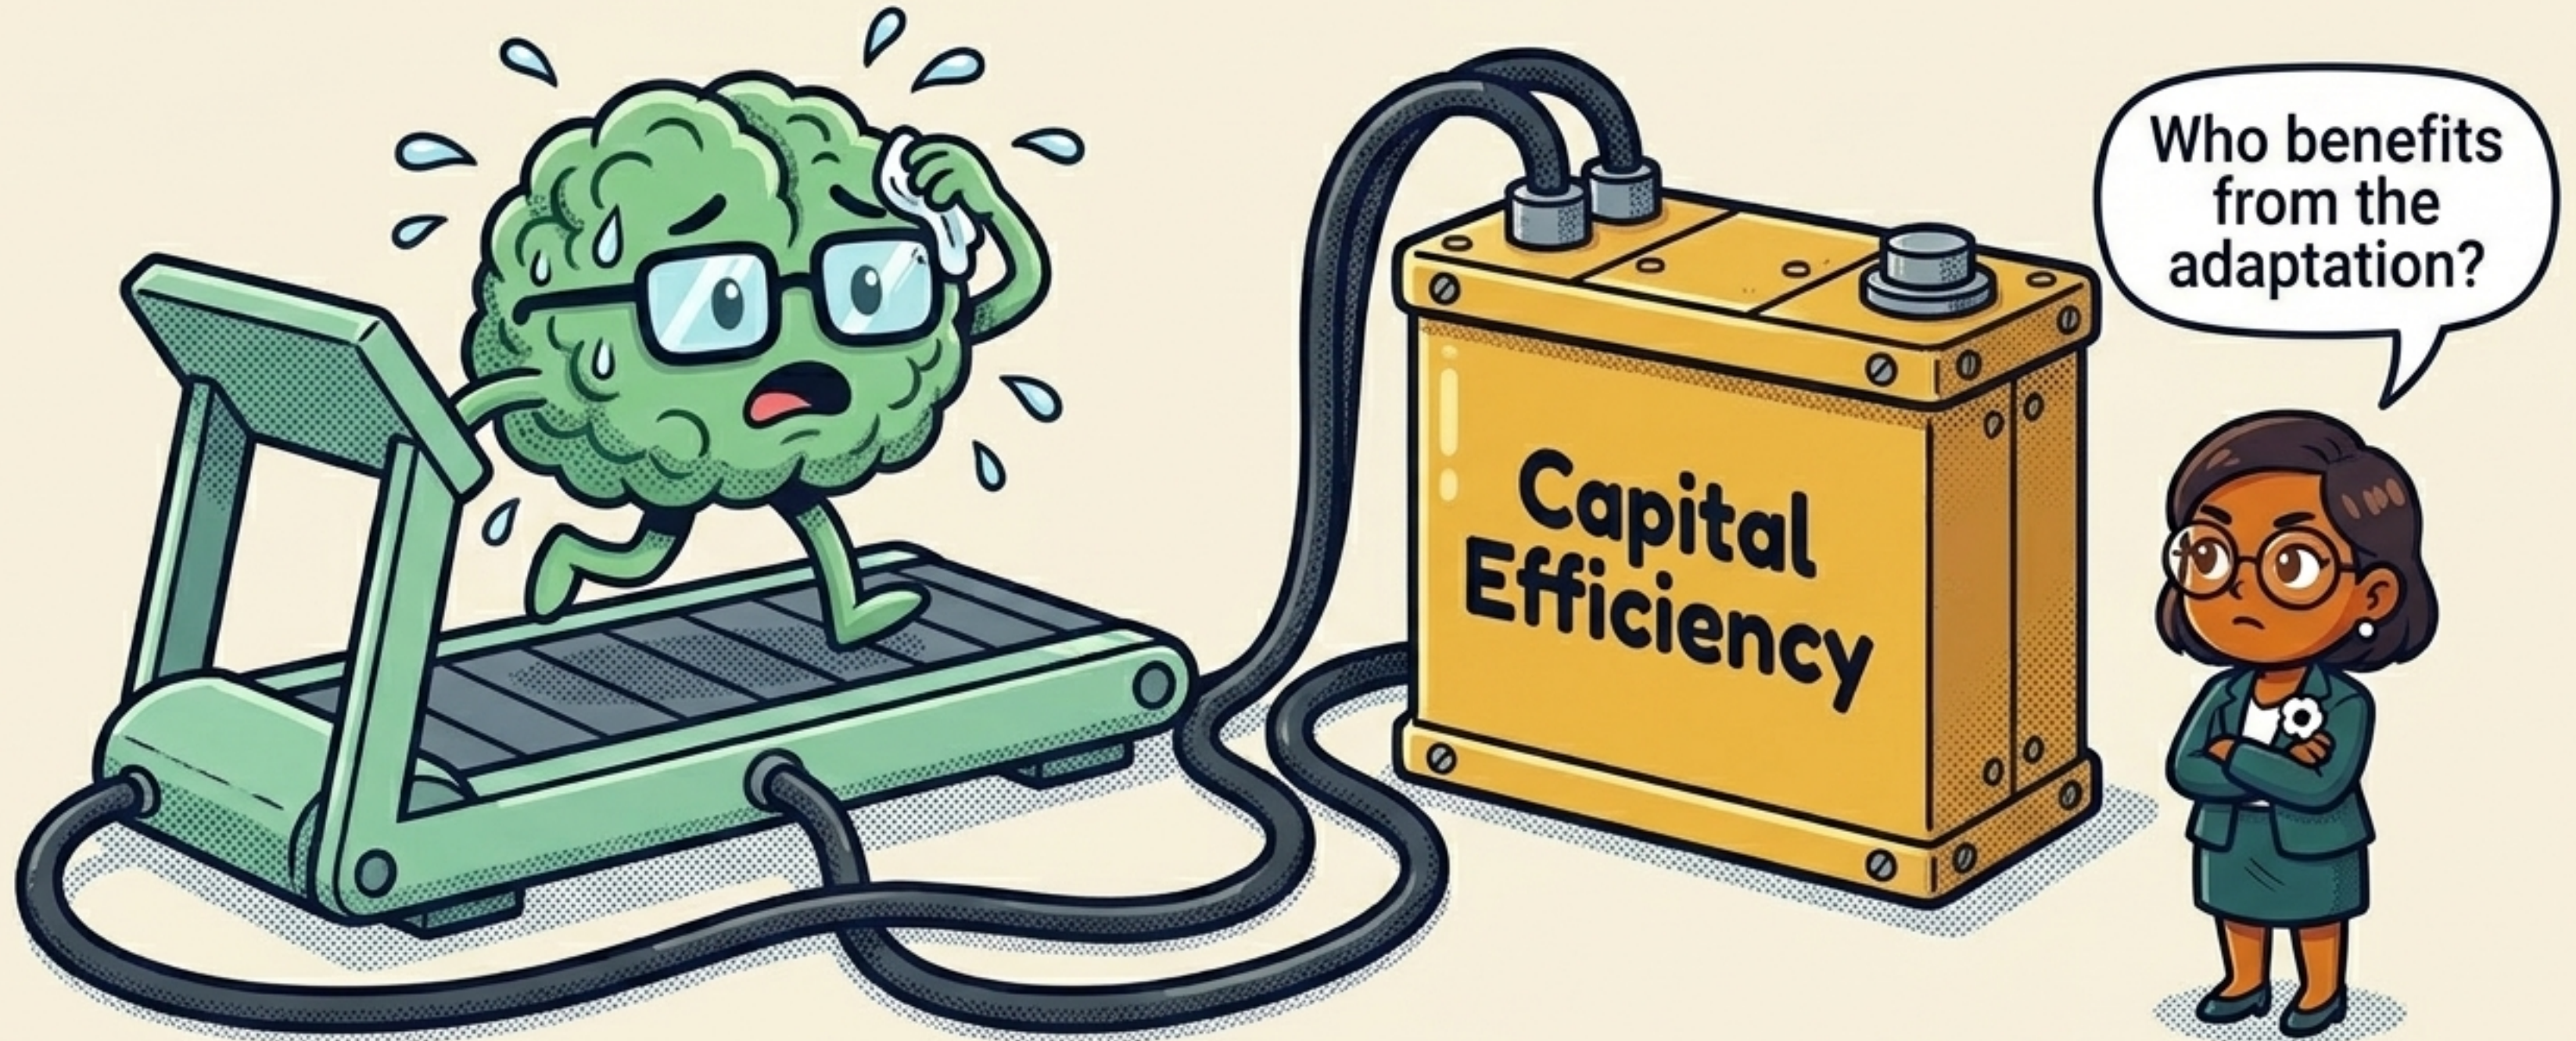

There was no true denazification in the West. The apparatus of the 'Extreme Center' seamlessly recycled authoritarian logistics into Cold War infrastructure.

# The Extreme Centre

Both systems claim absolute, 'scientific' truth, actively shutting down democratic debate. Unregulated capitalism breeds oligarchies; oligarchies bypass parliaments to force unpopular economic reforms.

# The Cult of Performance

The total exploitation of human potential. We are pushed to endlessly 'adapt' and perform, reducing citizens to disposable resources. (Barbara Stiegler)

# The Freedom of the Wolves

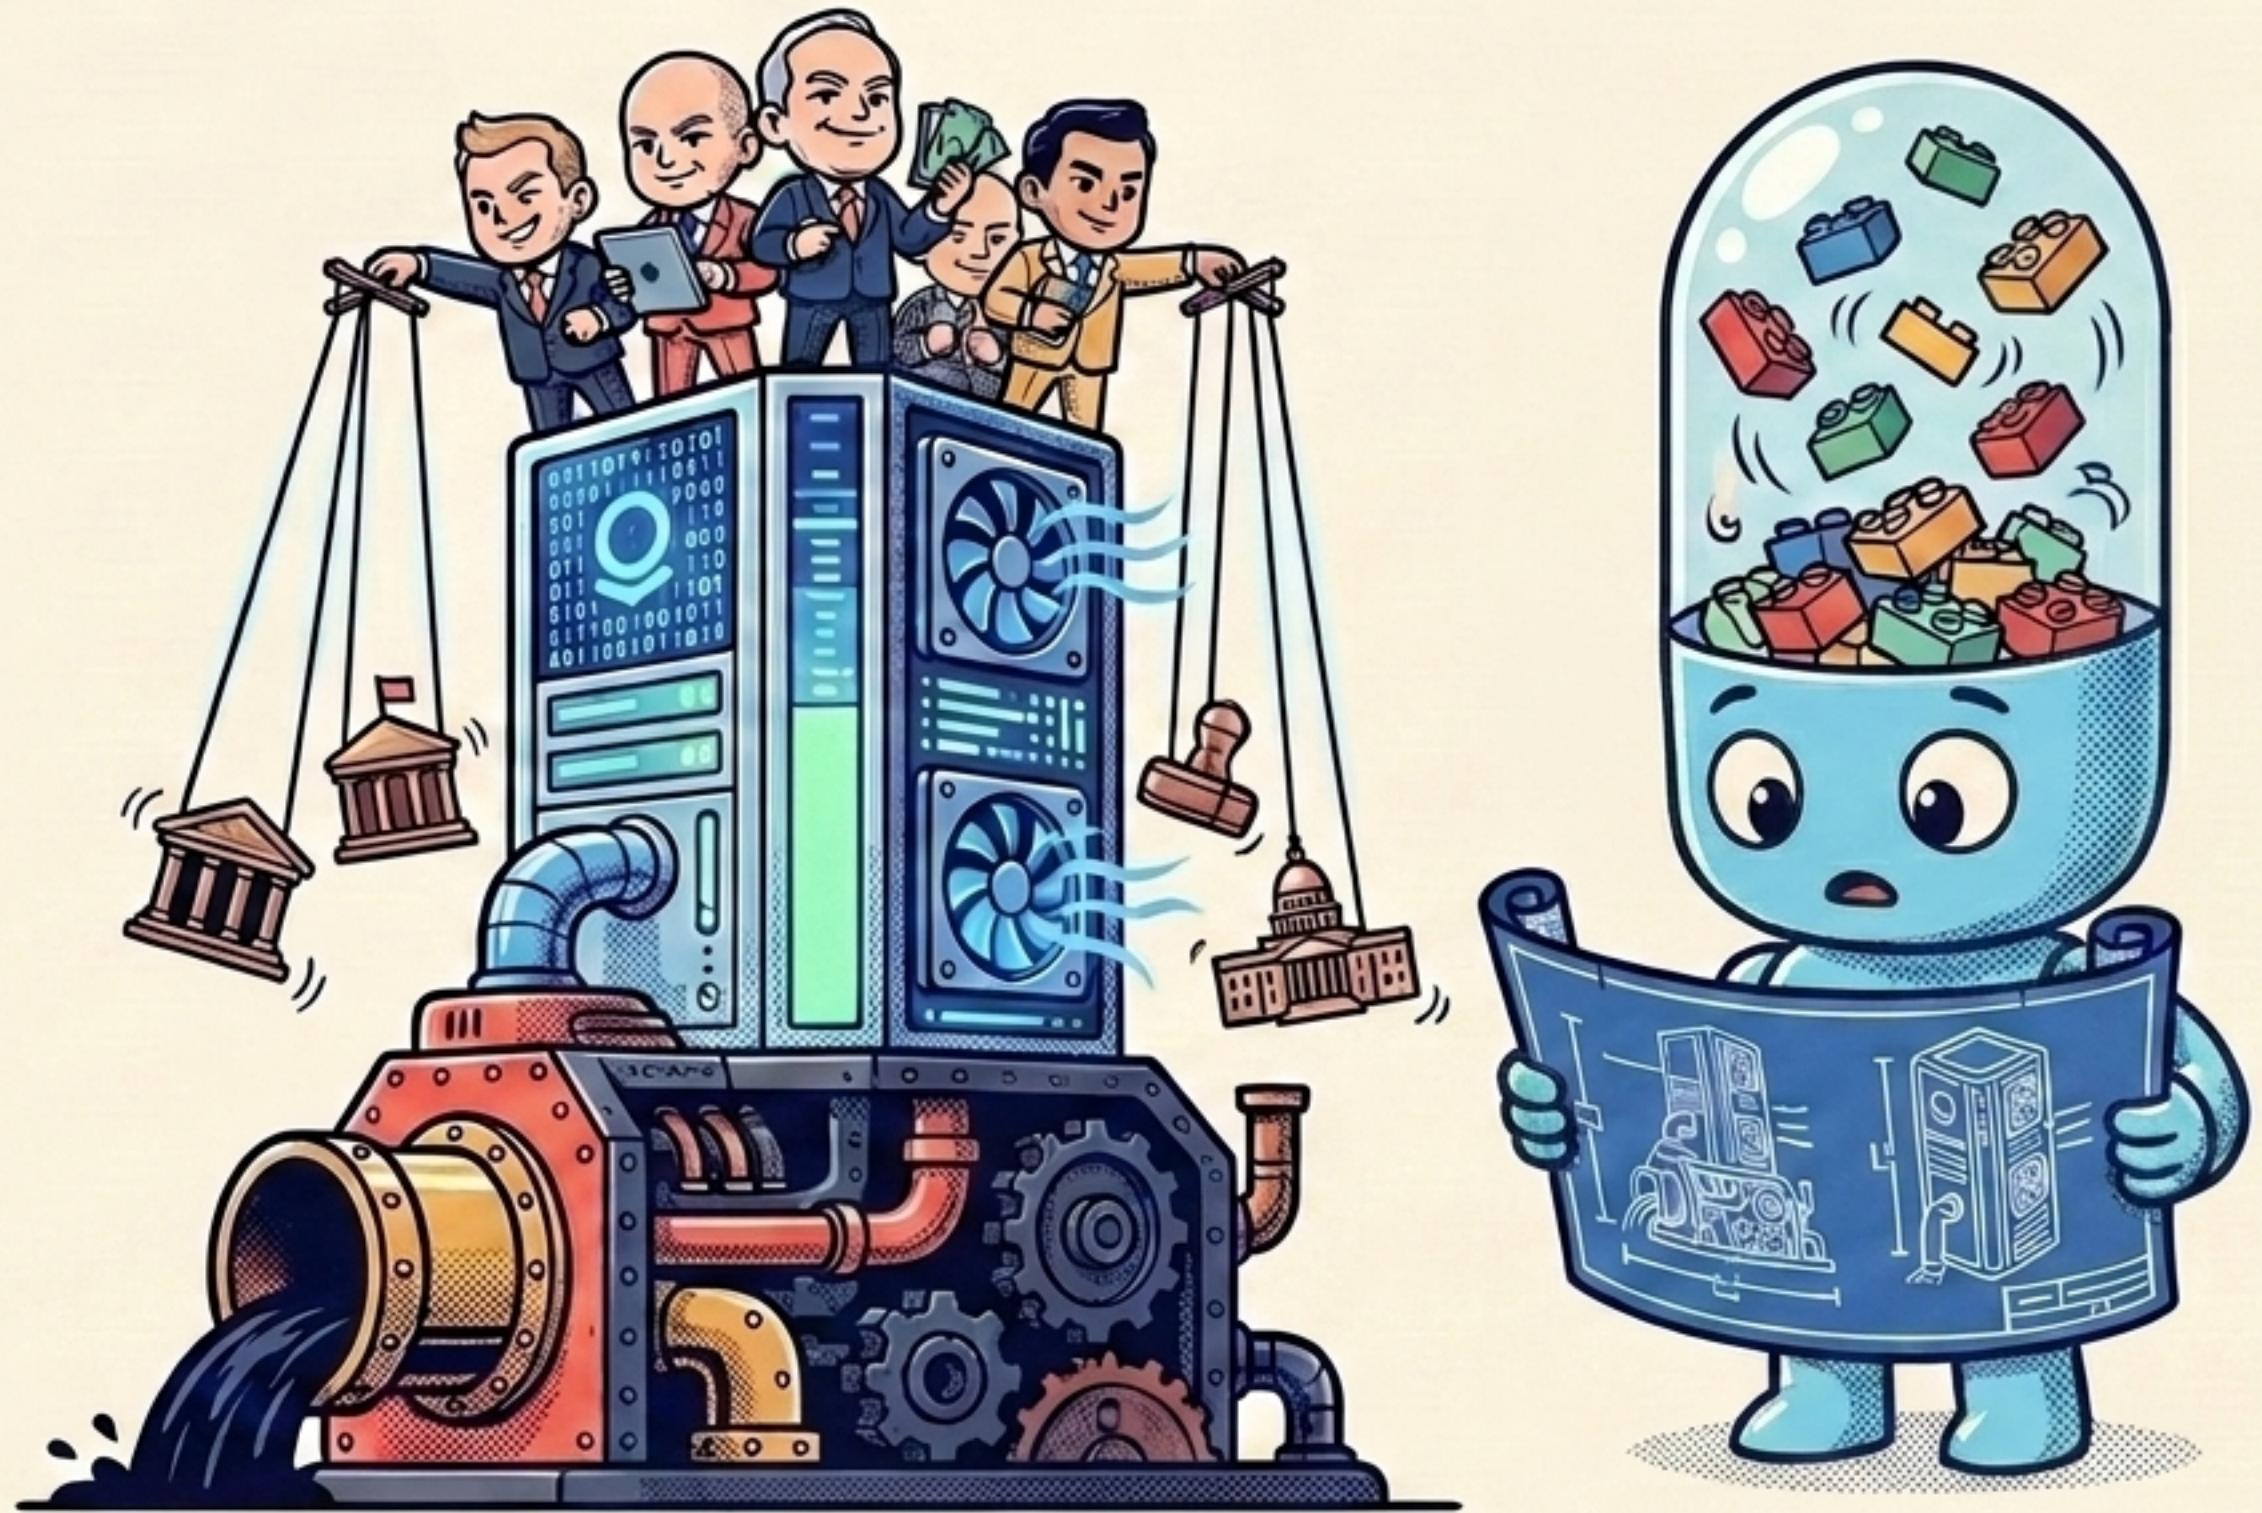

Deregulated  
Capital Monopoly

The Public /  
Democracy

Neoliberal liberty has been redefined as the freedom of monopolies to extract and pollute without constraint. (Joseph Stiglitz)

# The Technofascist Mutation

Palantir and Silicon Valley oligarchs do not just want to be state contractors; their ideological project is "authoritarian libertarianism"—to privatize regalian power and ultimately replace the state. (Olivier Tesquet)

Biology and politics. Same move.

Tech-oligarchs recycle the 1920s conservative revolution rhetoric (Spengler’s “decline of the West”) to brand themselves as the sole saviors of civilization.

# The Fog of Language

“Fascist linguistics” relies on massacred syntax and chaotic grammar to fog reality. By physically destroying the meaning of words, authoritarianism dislocates discourse, making exploitation look like liberty. (Olivier Mannoni)

# History as Vigilance

By recognizing the blueprints of the Extreme Center, we gain the civic and intellectual tools required to dismantle authoritarianism before the architecture is complete.
